## A NEW BASIS OF COMPROMISE

### JAPAN HAS FRESH PEACE PROPOSALS.

#### Latest Developments in the Situation—M. Witte Has a Financial Coffer—Summary of the Outlook.

Portsmouth, N. H., Aug. 28.—To-morrow morning Komura, acting upon instructions from Tokyo as a result of today's meeting of the cabinet and "older statesmen," under the direct presidency of the emperor of Japan, will submit to Witte a new basis of compromise, and that compromise, it is firmly believed to night, will insure peace.

The revelation contained in the Associated Press exclusive announcement to day that Japan had already informed Emperor Nicholas through Ambassador Meyer that Japan was ready to waive the question of indemnity and submit the price to be paid for the northern half of Sakhalin to a mixed commission but prepared this way for Japan's backdown upon the main issue. The Japanese declined to admit the correctness of the report and the Russians said they had no confirmation. Nevertheless on all hands it was admitted that if Japan took this position the ground was cut from under Emperor Nicholas. Everything depends upon the form in which the new proposal is submitted. Should the renunciation be coupled with the other proposition that Russia could claim it was still only a disguised demand for tribute, the gulf might only be narrowed, not bridged.

All private advices that reach the Russian mission from St. Petersburg indicate that the military party is bellicose and insistent that Elievlitch be given a chance and that negotiations be broken off.

An indication of the sudden turn in events was the arrival here to night of Frank A. Vanderbilt, vice president of the City National bank of New York. After dinner he went to Witte's room and remained there one hour. When asked his mission Vanderbilt said he was only "interested" in the situation. He had talked with Witte about the situation and outlook in Russia, the state of negotiations, etc. He evaded inquiries whether the subject of a loan had been discussed, but, considering the importance of "the financial group" of which the City National bank is a member and the fact that the bank took a portion of one of the Russian loans, it is fair to assume that the question of finance was not entirely ignored.

Some of the Japanese were greatly excited to night over reports that the Tokyo government had surrendered on the subject of indemnity. They refused to believe it, declaring that if true it would cause a tremendous outburst of popular feeling in Japan.

**RECEIVES MESSAGE.**  
Assistant Secretary Polce received a long cipher message from Oyster Bay to night.

**KUROPATKIN.**  
London, Aug. 28.—The Japanese correspondent of the Telegraph at Moll, Japan, reports that Kuropatkin has resigned his command and that his health has given way.

**RUSSIAN STATEMENT.**  
St. Petersburg, Aug. 28.—An Associated Press dispatch from Portsmouth declaring that President Roosevelt was authorized several days ago on behalf of Japan to waive all claim for indemnity or reimbursement for the cost of the war and to cede back to Russia the northern half of Sakhalin, leaving the "redemption" price of it to the arbitration of a mixed commission, was received here late last night (Monday).

There is reason for assertion that if it is true that Japan has agreed to do as stated in the dispatch it is probable Japan's proposal was never understood here in this way, and for the deduction, according to the Russian official statement, that the stumbling block to peace can be removed and that there ought to be a new and promising basis for continuance of negotiations.

**ODD MISHAP TO CENTURY FLYER.**  
Syracuse, N. Y., Aug. 28.—The flight of the eastbound Lake Shore Twentieth Century limited yesterday morning was marked by an accident peculiar in the annals of railroading. As the flyer was within a hundred yards of Syracuse station the front trucks of the last car left the tracks. The train remained intact until a telephone pole was reached, when the force of the collision severed the car from the rest of the train.

When the limited pulled into the station at 4:04 o'clock the car was missing and was quickly located. The passengers, however, were all asleep and none of them, it was said, was aware of the accident.

**A WILD STEER ENTERS STORE.**  
Norristown, Pa., Aug. 28.—A wild steer ran into a Main street department store here and the women clerks and customers fled in a panic to the second floor. The animal became wedged between a show case and a counter and for several minutes it looked as if the interior of the store would be wrecked. Finally the steer was driven out through a side door.

### Strange Abandonment of a Girl Baby and Boy at a Hotel in Albany, N. Y.

Albany, N. Y., Aug. 28.—Resources of the Albany police were focused this afternoon upon the apparently inexplicable abandonment of 5-year-old boy and 6-months-old baby at the Tenenick hotel by a couple who registered there as "John W. Rogers and wife, San Francisco."

There are suggestions but no evidence that the couple have met with accident or foul play or committed suicide. Papers found among their effects indicate instead the couple may have sailed Saturday from New York on the steamship Campana.

### A Would-be Balloonist Falls From His Parachute to Death.

St. Louis, Aug. 28.—Releasing his grasp on a trapeze attached to a parachute as the latter opened to the wind twelve hundred feet above ground John Williams, 38, was dashed to death near Cahokia, Ill. Every bone in his body was broken. The tragedy is said to have been the result of the victim's determination to make a balloon ascension.

**HAD HUSBANDS IN ABUNDANCE.**  
Philadelphia, Aug. 28.—While Mrs. Marion Hepler, known also at other times by half a dozen other names, is in Moyamensing prison, charged with bigamy, Harry Hepler and Elmer Smith, two of the men she called husbands, have not been idle. They will take steps to prosecute the case. Upon Mrs. Hepler's being given a hearing before a magistrate to answer the bigamy charge it was testified that she had a total of eight husbands and there were no records to show that she had ever been legally separated from any of them. In less than three years this woman, who is now about 25 years old, was married, it is charged, three times, at churches within a radius of twenty blocks.

Elmer Smith, who was her husband for nine months after July, 1900, and who preferred the charges against her, furnished the following named husbands in order of her marriages: George Nethercott, Dennis Quinn, Elmer Smith, William Cox, Walter Mitchell, Frank Plepton, John Mahter and Harry Hepler. At the trial Smith told of marrying the girl after having met her in court. He said he found that she had married and never been divorced from Nethercott and then left her. Hepler testified that he had met and married the girl all on the same day. He had never been divorced from her.

After the magistrate sent Mrs. Hepler to Moyamensing prison, in default of bail, her two "in evidence" husbands, Smith and Hepler, got together. To day it is learned that they have made a compact to put the prosecution through and to that end have called on the other six husbands to form a syndicate.

**HOGS KILLED BY HAILSTORM.**  
Guthrie, O. T., Aug. 28.—A destructive hailstorm visited western Oklahoma early to day, doing extensive damage throughout Beaver county. The hail stones were of immense size and the storm came without warning. Sixty-three hogs belonging to ex-Sheriff Ed Hilbs were beaten to death. A heavy rain followed, flooding the Cimarron river and its tributaries. Fruit crops and young stock suffered greatly from the storm.

**NEGRO LYNCHED.**  
Newbern, N. C., Aug. 28.—John Moore, a negro, 20 years old, was taken from Craven county jail in this city early yesterday and lynched by a mob of one hundred masked men armed with rifles and revolvers. With his hands tied behind him the negro was led out about a third of a mile from the jail to the draw of the Neuse river bridge, hanged to one of its braces and his body riddled with bullets.

The mob attacked the jail between 1 and 2 o'clock in the morning, forcing the jailer to surrender the keys. As soon as the attack was discovered the naval reserves were called out to prevent the lynching. Crowds rushed to the bridge. Sheriff J. W. Biddle was quickly on the scene, pleading that Moore be left to the law, but his efforts were unavailing, and the mob quickly carried out its plans.

**JOHN H. WALSH, Jacksonville, Ill.**  
Moore entered the country store of George Eubanks, at Clarke, seven miles from Newbern, last Friday, when the proprietor's wife was the only one in. The negro attempted robbery and struck Mrs. Eubanks on the head with a meat axe, fracturing the bones and inflicting injuries which, if they do not prove fatal, will at least cause not only disfigurement but lifelong suffering. Mrs. Eubanks screamed and persons came to her rescue. The negro fled, but was captured in a swamp after a chase of a few miles, and was placed in jail.

## FIRE FROM HOTEL

### Russian Officers Ordered to Get and Go on Account of Misconduct.

San Francisco, Aug. 28.—Two officers of the Russian transport Lena, now interned at the Mare Island navy yard, were turned out of the Palace hotel. The night watchman threw them out with their baggage. Incidentally two female guests at the hotel were required to leave at the same time.

Captain Agnithor, who was in command of the Lena, and his second officer, Capt. S. Ratmanoff, are the Russian naval officers who figured in the episode. For months, while the war had been raging in the orient, and more recently while Russian and Japanese envoys have been sitting on opposite sides of a table at Portsmouth, the Lena's officers have been merry-making in San Francisco. Their parole from Mare Island permits them to journey as far as the city of "Frisco."

The women who were concerned in the adventures of the Lena's officers arrived at the Palace a week ago. One claims to be the wife of a diplomat in Russia. The other is unmarried and registered from New York. They were objects of persistent attentions from the officers of the Lena almost from the day of their arrival and the actions of the quartet were the subject of much comment about the hotel.

Early yesterday morning the watchman decided to interfere and in the face of violent protests in language that was not understood the Russian officers were unceremoniously required to settle their bill and depart.

Before their trouble at the hotel the party had taken a dinner and a midnight auto ride. At one swell saloon where they stopped for liquid refreshments one of the officers threw a bottle at a waiter whose manners displeased him. Captain Agnithor and Ratmanoff threatened that the affair at the hotel would develop into international complications. The Palace authorities, however, do not appear to fear any consequences.

Obermeyer, City drug store."

## MAKES REPLY

### Governor Cummins of Iowa Explains Some Recent Utterances.

Des Moines, Aug. 28.—Gov. A. B. Cummins to day made a reply to an attack made upon him by Secretary Shaw, who criticized him for misquoting the secretary in his speech before the Chicago reciprocity convention. Cummins shows that he said the quotation was from an editorial in the Des Moines Capital, whose editor attended the banquet of the Des Moines bankers where Shaw made the address and who is a warm supporter of the secretary. Shaw's objection was to that portion of Cummins' speech in which the secretary was alleged to have said in effect that the senate failed to approve the French treaty because it gave France everything and the United States nothing. Cummins gives the Capital as his authority for the quotations, declares the Capital's editor was present and heard Shaw's speech, and insists the editor could not have been mistaken. Cummins says further:

"When he wrote in his vivid and striking way that you 'exposed the proposed French treaty in all its deformity, demonstrating that we were offering France a tremendous bargain and getting practically nothing in return,' it was not possible for me to doubt that you had said what he had imputed to you. Neither that he could easily misunderstand me, but it is incredible that he should misunderstand you."

## VESSEL LOST

### Fierce Gale Sinks a Steamship and Twenty People Perish.

Fernandina, Fla., Aug. 28.—Twenty men, constituting all but two of the officers and crew of the American steamship Peonia, bound from Philadelphia to New Orleans, were drowned by the sinking of that vessel off the coast of Florida to day. The disaster was the result of a fierce gale which raged along the coast during the night and early this morning. Lashed by the storm, an immense wave struck the vessel broadside with such terrific force that she began sinking rapidly. In less than ten minutes after the alarm, was sounded she had gone to the bottom and no trace of her was left upon the waters.

He conversed with each of the American members, expressing admiration for the United States and saying that he kept President Roosevelt's photograph, bearing his signature, on his desk in his study. ## ICE

The Staff of  
Life  
in Summer

Yet some families try to worry through these warm days without it. Some for economy's sake—others just because they never got into the habit of using ice.

But for either reason, the results are the same. The butter's soft, the milk tainted and the sliced tomatoes all mushy.

If you have not been using ice, try it for the rest of the summer and see the difference. But be sure to get PURE ice—there's a risk in using the other kind.

Our ice is the purest marketed in the city. It is taken from a lake fed with pure, sparkling spring water. We wash it perfectly clean and put it in your ice box free from dirt.

## RECORDS OF EARLY DAYS

OFFICIAL RECORDS OF  
ILLINOIS DATING AS FAR  
BACK AS 1737

Territory Then in Possession of  
the French—Documents Now  
Incased in Iron and Asbestos  
—Papers Are the Property of  
St. Clair County.

Belleville, Ill., Aug. 28.—Stored away in the dark vaults of the St. Clair county courthouse in this city are a large number of old French records, said by students of history, who have recently made a study of them, to be the oldest official documents intact bearing on the early settlement of the central west. So highly prized are the documents that the St. Clair county board of supervisors recently had the records incased in iron and asbestos. The board has repeatedly refused access to the papers to some of the most prominent students of history of the country for fear the documents might become damaged.

The records date as far back as 1737, and have to do with the registrations of donations of the court of Illinois and with the earliest history of the Prairie state. The oldest is a record of the court during the years 1737 to 1769. It is written in French, and is fairly legible. Inscribed on the initial page in "Record of the Registrations of Donations of the Court of Illinois." This is at least one of the fourteen record books which the clerk was required to keep by the French government. It is presumed that the others have been destroyed.

The purpose of the record was to furnish the court with copies of donations of property, both personal and real, whether made between the living or by last testament and will of the parties thereto. Owing to the deeds being drawn by royal notaries, who had jurisdiction in all cases in which there were no litigations, the French government required, for the complete preservation of these important records of transfers of property their registration at the nearest court.

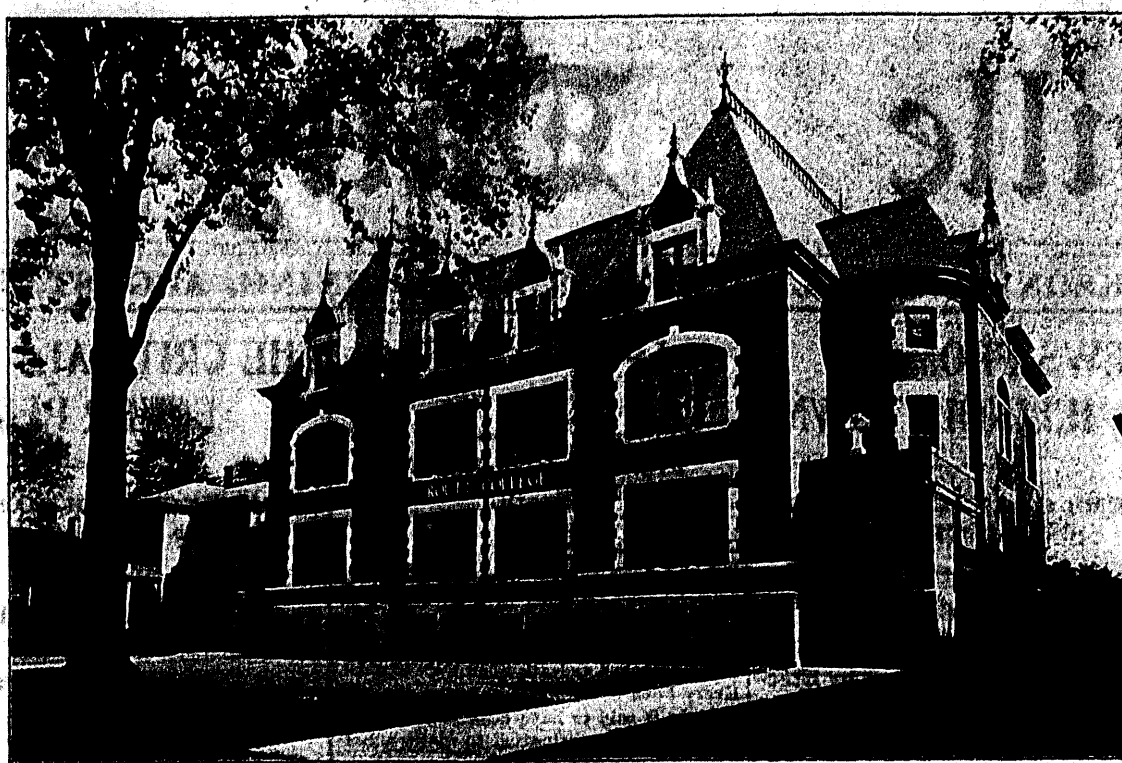

Contracts of marriages are recorded in connection with the largest number of deeds or gifts contained in this record book, so that the volume is of inestimable value to those interested in local genealogy.

It was required by the government that the judge of the local court of Illinois inspect this register annually to ascertain if it was kept in accordance with the edicts of the sovereigns. The judge invariably, after the inspection, made a record of the fact. As is indicated by the record in latter years of the French rule, the officials of the district of Illinois became careless. This was during the period of the French and Indian war, and it is probable that France seemed far away to the French officer on the banks of the Mississippi river and the danger of a reprimand remote, for, after the year 1767, according to the record, the judge no longer performed his annual inspection, and the clerk became neglectful of his duties.

James Baptiste Bertier Barrios was the clerk and he kept the register until 1764 at Kaskaskia, when he, with other officials of the court, removed to Fort Chartres. Here Barrios died in March, 1767, and was succeeded by Joseph Labuxiere, who continued to register donations in the book at Fort Chartres. The peace treaty of Paris ceded the territory of Illinois to England. With other officials of the court, Labuxiere crossed the Mississippi river to St. Louis, and here he opened the old record book again to register deeds of gifts for the French settlers.

After George Rogers Clark had conquered the northwest, Labuxiere, in 1782, placed the record under his arm and crossed the river from St. Louis to Cahokia and there he served his countrymen in an official capacity for many years. The register finally passed into the hands of officials at the court of Cahokia, and after innumerable vicissitudes, found a final resting place in the courthouse at Belleville when the city became the county seat of St. Clair county.

The Belleville records from the period following the conquest of George Rogers Clark are of still greater value to the historian. They show that the first election held in the territory of Illinois took place at Cahokia. Clark desired to win the confidence of the French, and did all in his power to promote a feeling of good will among them toward the

## ROUTT COLLEGE

ARRANGEMENTS FOR DEDICATORY EXERCISES HAVE  
BEEN COMPLETED

Bishop Ryan of Alton Will Preside—Principal Address by Hon. W. C. H. Keough of Chicago—Special Musical Program—Exercises Also on Wednesday—Plan and Purpose of Institution.

Route college, the Catholic institution of learning made possible through the generous donation of William R. Routt and his son, Harvey J. Routt, will open its doors to students Wednesday, Sept. 7, but before the formal entry of students to the halls dedicatory exercises of an appropriate character will take place.

The magnificent building of imposing architectural beauty will be dedicated at a public ceremony Tuesday evening, Sept. 5, when distinguished clergy and other men of prominence will be in attendance. Rt. Rev. James Ryan, D. D., bishop of Alton, will bless the building, attended by clergy Tuesday evening at 7 o'clock. At 8 o'clock the dedicatory exercises will begin, presided over by the bishop.

The principal address will be delivered by Hon. W. C. H. Keough, member of the faculty of the Illinois School of Law of Chicago, whose wife is a member of the board of education of the city of Chicago. Very Rev. J. W. Crove will also make a few remarks and a fine musical program by the choir of the Church of Our Savior, rendered under the direction of Prof. Vicente de Arillaga, the new organist of the church, will be given during the ceremonies.

Wednesday at 8 o'clock a. m. there will be solemn high mass, coram episcopo, celebrated at the Church of Our Savior. At 9 o'clock, at the college, will take place the commencement exercises of the Catholic high school and an address will be delivered

Americans. With this end in view, he permitted Capt. Joseph Bowman, his representative in Cahokia, to hold an election of justices. There are four pages of the record of this court which was in preservation in the archives at Belleville. From them it is learned that the court was composed of eight justices and a president, and that weekly sessions were held for the trial of both criminal and civil cases.

It is further learned from the records that John Todd was sent to Illinois by Virginia to establish a more permanent form of government. Todd took Clark's court as his model and held elections at Kaskaskia, Cahokia and Vincennes, at each of which settlements a court was formed. The history of these courts up to the present time has been clouded, but fortunately the court of Cahokia record has been preserved at Belleville.

It is learned from this record that the government founded by Todd, although deserted by Virginians and neglected by the United States, continued to conduct its monthly sessions until 1790, when Gov. St. Clair came to Illinois to take possession for the United States and set up a new government.

The historic records in the archives

The enrollment of students will begin Thursday morning.

The opening of this educational institution is a decided addition to the educational interests of Jacksonville, a city ever rich in resources of this character, and the policy of the school will be of such a standard as to maintain the highest and best in literary, scientific and religious training. It has a unique feature in that no tuition fee is charged and it is doubtful if there is another educational institution of such a character in the state of Illinois. The school has been founded through the labor and sacrifice of men of piety and devotion and their efforts will no doubt be richly rewarded.

The following taken from a neatly printed folder which was placed in the hands of members of the Church of Our Savior Sunday morning gives a succinct account of the spirit in which the school was founded, the purposes for which it stands, the courses offered and the members of the faculty:

"Route college is an institution of learning under Catholic auspices founded mainly through the generous gift of William R. Routt and son, Harvey J. Routt, distinguished citizens of Jacksonville, Ill.

"Their contributions of \$25,000 and the land upon which the school is located was gladly supplemented by an offering of \$10,000 from the Catholic congregation, joined with the many splendid donations of our liberal non-Catholic friends.

William R. Routt, the founder of this college and whose honored name it will ever bear, comes of a noble line of ancestors, converts from Protestantism to the Catholic faith and regal in their munificent gifts for religion and humanity.

"The aim of this school is the highest development possible of man's intellectual abilities, coupled with a thorough knowledge of his duties to his Creator.

"We wish to announce that the academic department of Route college will open Sept. 6, 1905. A limited number of students will be received. There are absolutely no charges for tuition in any department of the college. The academic department is open to all boys and girls of good character, Catholic or

Protestant, or no religion, who have finished the eighth grade. All will be obliged to conform to the discipline of the school and to attend the religious instructions.

"We have now a small endowment. As soon as we are able to increase this, which we hope to do before long, we will open the collegiate course of four years more.

The object of Mr. Routt and the promoters of this school is primarily to furnish higher Catholic education free to such persons who otherwise would be denied its blessing, and to represent the faculty is composed of: the parochial schools so far as our means and capacity allow.

"The faculty of the institution has been chosen with great care, each member having made special studies in his respective department. At present the faculty is composed of:

Mr. James C. Maddigan, B. S., graduate of Masten Park High School, Buffalo, N. Y., and Hobart college, Geneva, N. Y.

Mr. Vicente DeArillaga of Leland Stanford University.

Rev. F. F. Formaz, S. T. L., of Catholic University Washington, D. C.

Harvey J. Routt, of St. Louis university.

Rev. F. O'Brien; Sister Regina, O. S. D.; Sister Evangelista, O. S. D.

Instruction will be given in the following branches: Latin, Greek, German, French, Spanish, English, History, Mathematics, Science and Christian Doctrine."

### STUDIO OF MUSIC.

Announcement is also made that the Dominican sisters will move out of the convent on East Court street and will conduct a studio of music in the building formerly occupied by the Routt club, which will also be their residence. This studio of music will be conducted in conjunction with the work of Prof. Vicente de Arillaga, who will have his music studio in the Routt college building.

The old convent building on East Court street will be used for school purposes. The upper rooms will be used for pupils of the seventh and eighth grades and the lower grades will be for kindergarten purposes, the latter department to be under the direction of Sister Raymond. The parochial schools and the kindergarten will open Thursday, Sept. 7, and instruction is free to all.

Mr. Perrin read a paper on the records in 1901 before the Illinois State Historical society, which some months ago caused the state university trustees at Champaign to have a historian, in the person of Prof. Clarence V. Alvord, make a careful examination of the papers. He was permitted to inspect a number of the documents by the St. Clair county board, from which he has compiled statistics for the first volume of a history.

For the purpose of making answer to the large number of inquiries and complaints that have reached the governor and the attorney general in regard to enforcement of local laws, Attorney General Stead yesterday gave out an opinion in which he gives as his interpretation that it is not the duty of the governor to take a hand in the enforcement of police and municipal laws. The Illinois constitution provides that "the supreme executive power shall be vested in the governor, who shall take care that the laws be faithfully executed." According to the opinion of the attorney general, so far as municipalities, counties or towns are concerned, the people shall have local self-government, but if the civil enforcement of these laws through the courts is resisted, then it is the duty of the governor of the state to call out the military power.

The opinion has gained some prevalence in the state that wherever local officials fail in the enforcement of the laws that it is the duty of the chief executive to interfere. The objection that have reached the governor and the attorney general are mostly from ministers, who state that the local officials fail to prevent horse racing, gambling and Sunday base ball games.

### SENATORIAL.

The senatorial situation has taken on new activity in the past few days, and the rumors and stories printed are of such character that every opinion may be suited in the same paper. The Quincy Whig seems to doubt that Lieut. Gov. Sherman was correctly quoted in an interview which appeared in many papers recently, when Mr. Sherman is quoted as saying:

"As between Cullom and Yates, I and my friends will occupy a strictly independent position. If I become a candidate for the senate there will be nothing in common between myself and either of the two. As has been said, a contest between these two would be a fight of an antique and a dub."

The interview appeared simultaneously in the columns of the St. Louis Republic, a Democratic newspaper, to which the lieutenant governor is credited with having given his views on the subject, the Chicago Tribune, the Chicago Chronicle and the Chicago Record-Herald. Evidently the interview was telegraphed to the three newspapers by correspondents in touch with the Republic, which claimed to have secured it from Mr. Sherman subsequent to the recent congressional convention at Bushnell.

Speaking of the new primary law Judge Sherman said:

"There is much difference of opinion as to the effect of the primary law on the senatorial contest. There is no unanimity in the construction of its regulations, as effects the senatorship. At best, there is no instruction to the members of the legislature as to whom they should support. The popular vote will be only advisory and will be construed by the individual legislators as suits their separate whims and political sagacity. There are twenty-five senators who were elected last November who will not come under the provisions of the law. They will vote as they please, and cannot be instructed or even advised by the primary vote next spring. "In the thirty-two senatorial districts, outside of Chicago, I see nothing but the prospects for a record breaking primary for bitterness, cold blooded politics and desperate fighting."

The Chicago Tribune says: "That former Attorney General H. J. Hamlin may be the man whom the state organization will back to carry Cook county against Senator Cullom in the next primary is pretty generally admitted. That the organization cannot bring Richard Yates into the county as its candidate is also admitted."

"Members of the Cook county organization said that Hamlin of all the candidates thus far discussed would be the best man for the governors organization to back in Chicago."

"It would be impossible to bring Yates into the county as the candidate of the organization," said a member of the county central committee. "We could not make a fight with him. If the politicians are to stay out of the contest and allow both Yates and Cullom to go for the votes Cullom would win. If Cullom is to be fought here some other candidate than Yates would have to be found."

"Deneen's name has been mentioned as a possible candidate for the senate, but he has no intentions. What the governor's ambition may be for the years after he has served his term is not known, but it is a fact that he has not the slightest

### HEALTHY PLANTS

Require the Most Careful Attention as Well as Good Soil.

Did you ever see a rosebush which, despite the most beneficent environment of soil, of sunshine and of atmosphere, seemed never to achieve a healthy growth?

A ton of manure will not help a plant that has a canker eating out its heart.

You must destroy the cause before you can remove the effect.

You cannot cure Dandruff and Baldness by rubbing on hair lotions, and rubbing in vasoline, etc.

You must look to the cause of the trouble—it's a germ at the roots of your hair which causes it to fall out. Newbros' Herpicide destroys the germ and healthy hair is the sure result.

intention of going into the approaching contest as a candidate.

"When Senator Hopkins comes up for re-election there may be a different story. It is no secret that the new state organization is after Hopkins with more vindictiveness than it is after Cullom. When Hopkins' term nears its end there will be no uncertainty as to the candidate. It may not be Deneen, but the state organization will have one in training."

Lieut. Gov. Sherman has been considered a possibility for the administration candidate in Cook county, but the local political managers do not consider him so strong here as Hamlin. Sherman probably would be a candidate if the county organization here would accept him as the most available man against Cullom. As such an agreement is not likely to be reached, he is not likely to be a candidate—at least not for any other purpose than to make trouble for Cullom and Yates down the state as a free lance and to have the fun of campaigning.

### DE WITT SMITH RESIGNS.

DeWitt Smith, of Springfield, chairman of the Illinois good roads commission, has tendered his resignation to Governor Deneen to take effect immediately. Mr. Smith assigns as his reason for resigning the fact that the powers and duties of the commission which was created by the Forty-third assembly ended with the adjournment of the Forty-fourth assembly. The new law passed by the last legislature went into effect the first day of July, 1905, and provided for a new commission. Mr. Smith states that under this law the old commission has no power to act and as the governor has more at stake in the good roads position than any one else he does not wish to hamper his action or policy in any way.

The letter of resignation follows: Hon. Charles S. Deneen, Governor of Illinois:

Sir: I have the honor to submit herewith my resignation as member of the Illinois good roads commission, to take effect from this date.

The work prescribed for the commission was practically finished upon the adjournment of the last general assembly, and it was my intention to have sent in my resignation at that time, but circumstances seemed to render such a course inadvisable.

Of the \$5,000 appropriated by the Forty-third general assembly for the expenses of the Illinois good roads commission, \$2,373.12 remain in the state treasury. Respectfully, DeWitt W. Smith.

Aug. 22, 1905. It is understood that Governor Deneen will appoint Mr. Smith a member of the new commission, although it is said that a question has been raised regarding Mr. Smith's political affiliations. The law provides for the appointment of one Democrat on the commission and neither the Republican nor Democratic organization, it is said, will claim Mr. Smith's support.

### STATEMEN BY DENEEN

Says Story That Appeared in Columns of Tribune Was Without Foundation in Fact.

Governor Deneen stated to a Springfield reporter that the following statement, which appeared in the local columns of the Chicago Tribune, was without any foundation in fact. He said he had made no demand that the supposed candidates for senator declare themselves and that he has given the ultimatum to the federal faction that there must be reciprocity in appointments or retaliation. The Tribune article says:

"Governor Deneen has called for a show of hands all down the line in the senatorial contest. He has announced to all the Republican factions that as a guessing contest the situation has played itself out and now is the proper time for a few facts to show themselves."

"In the first place the state organization wants to know who the candidates are. Of all those in prospect only one—Cullom—has admitted his candidacy."

"The purpose of the state organization has been made plain to the federal organization in these words:

"There will be either reciprocity or retaliation. Cullom can have his choice."

Governor Deneen's proposition is to give the patronage in counties which Yates carried to the dominant faction and to the Hamlin men where Hamlin was in the ascendancy and to Sherman men where Sherman was out in the gubernatorial fight, except in the cases of counties where the question was decided by the committee on credentials, when the matter will have to be settled in some other manner."

This plan is acceptable to all elements of the party so far as it applies outside of Cook county and there comes the rub. The governor calls attention to the fact that at the last primary there was a change in political affairs in Cook county. A new order of things was set up and a new organization came into control.

Senator Cullom is facing the fact that if he is to get patronage for his forces down the state he must give it to Deneen in Cook county.

Mr. and Mrs. Lee A. Beroff, of Chicago, are visiting in the city.

Mr. and Mrs. Thomas Pitner, of Decatur, came over in their automobile Monday and will be the guests of Dr. and Mrs. T. J. Pitner at Fairview for a few days. Mr. Pitner has a Winton machine.

Mrs. George Watson, of Old Mexico, is a guest of Mrs. C. A. Catlin of West State street.

### HOUSE WARMING.

Mr. and Mrs. Reuben Meginson entertained a number of friends Saturday evening at a "house warming," the occasion being their recent occupancy of a handsome dwelling. A very pleasant social time was enjoyed by all.

### BETTER THAN SPANKING.

Spanking does not cure children of urine difficulties. If it did there would be few children that would do it. There is a constitutional cause for this. Mrs. M. Summers, Box 46, Notre Dame, Ind., will send her home treatment to any mother. She asks no money. Write her to day if your children trouble you in this way. Don't blame the child. The chances are it can't help it.

### HEARD AT THE DUNLAP

Traveling Men Speak in High Praise of Jacksonville.

A group of traveling men at the Dunlap last night agreed that Jacksonville was one of the most up-to-date cities in the country. One of them said, "I can generally tell whether a town is up with the times by noticing the brand of cigars that is the most popular. If the leading store sells more Wadsworth Bros.' Chicos than they do of any other cigar I put down the residents of that city as progressive and up-to-date and desirous of the good things of life."

Wadsworth Bros.' Chicos are sold

in Jacksonville by Armstrong & Armstrong and the man at the cigar case told me that he was selling twice as many Chicos as of any other two kinds. This shows that Jacksonville smokers want a good mild Havana filled cigar that burns freely, is mild and pleasant and makes an enjoyable smoke.

Wadsworth Bros.' Chico is the only cigar I know of costing less than twenty cents that fills the bill. "Just see how fragrant it is," he said as he puffed a lot of smoke over the group.

Chicos sell for but five cents, even though as our friend, the traveling man, said, "it is the favorite with those who want the best cigar they can get for their money."

OFFICIAL BOARD MEETING.

Monday evening the official board of Grace M. E. church held a meeting in the church parlors to look over matters pertaining to the general welfare of the society, to consider the financial situation and to make provision for necessary attention as seemed to be needed respecting the same.

Action was also taken regarding their pastor, Rev. Dr. H. H. Oncl, in the following resolution, that:

"Whereas, the approaching annual session of the Illinois conference will terminate the third year of Brother Oncl's relations to us as pastor; we the official members of Grace M. E. church take this opportunity to express our appreciation of his labors among us. His sermons have been helpful and inspiring. In the presentation of Scriptural truth he has exhibited unusual clearness of thought; aptness of illustration; and earnestness of purpose. With no unbecoming oil has he allowed himself to enter the sanctuary.

In pastoral work and social life, Brother Oncl has been sympathetic and affectionate, and has always illustrated the character of a Christian gentleman. Not only has he ministered to us in our sorrows, but we too have had occasion to sympathize with Sister Oncl and himself in the bereavement which came to them. The bond of affection between us has thereby been greatly strengthened.

"We therefore respectfully request Brother Cranston, the presiding bishop of the conference, to return Brother Oncl to this charge for another year. We also request our presiding elder, Brother Scrimger, to use his influence for the attainment of this end."

The Great Parker Carnival company has come to town, and the Eagles' Jubilee and Automobile tournament is now in full blast. The city has taken on a gala appearance and the business section has been given up to the purposes of the pleasure makers and the pleasure seekers. Everything is in readiness for a grand week, even the weather man, and unless all signs fail, the visit of the Parker shows will be characterized with a greater degree of success than has hitherto been attained by a similar attraction in this city.

The shows arrived from Peoria Sunday afternoon about 4 o'clock in their special train via the Alton and laid in the Alton yards until midnight, when the work of unloading was commenced, William Nunes being employed to haul the wagons to the square. The preliminary operations were watched by a large crowd of interested spectators. Al (Red) Wilson was in charge. The work of preparation for the opening progressed rapidly, and by evening all the shows except "Creation" were open to the public, and hundreds took advantage of the opportunity to visit the different attractions before the crowds should grow too great for comfort.

A representative of the Journal visited the shows in company with F. E. Richmond, the press agent, and found everything connected with the company to be first class, clean and perfectly moral. The claim of Mr. Parker of having the most moral, clean and high class attractions on the road were borne out by the facts.

The first place visited was the office, situated inside the east entrance to the park. Here is where the executive work is done. Four typewriters are in constant use, and a spirit of hurry pervades the place. The staff is composed of C. T. Kennedy, proprietor and manager; Ned Stoughlin, assistant manager; Alden Thorpe, treasurer; Walter Snyder, secretary. The press agent, F. E. Richmond, has his office at the Roman Coliseum. Al Wilson is the trainmaster, and William Eichhorn the chief electrician. Mr. Parker was in the city from 1 to 7 o'clock Monday morning, and will return later in the week.

THE COLISEUM.

At the shows were found to be good, but the chief attractions, and the ones which Mr. Kennedy especially prides himself, are the Roman Coliseum, at the southeast corner of the square and trained wild animal show, just south of the east entrance. The Coliseum exhibits many of the features of a big circus. Seats are

arranged for about 2,000 people, and the performance is given on an elevated stage in the centre. The attractions are the "bicycle whirler," "dainty Demona leaping the loop" in a hollow ball; Ramall Brothers, the famous rifle shots, in a novelty act; jugglers, acrobats, etc. fourteen acts in all. This show opens only twice daily, at 3:30 and 9:30 p. m.

WILD ANIMAL SHOW.

The wild animal show with the Mundy company, which made such a hit here last year, has a hot rival in the wild animal exhibition with the present company. The collection of animals is especially good, and thrill-

ing acts are abundant in their performance. Mlle. Marie puts a den of hounds, bears and jaguars through their tricks. LaBelle Salina gives the Spanish dance in the lions' den, and Captain Cordova exhibits his trick bear, and fights hand to hand with Spiffire, the untamed tiger.

THE ALPS.

The Tyrolean Alps, just north of the east entrance, is another very creditable attraction. St. Geneva, Switzerland is represented in miniature, and by the use of innumerable electric lights and mechanical effects a very striking and beautiful picture is shown. This attraction came in for a large share of praise from the carnival visitors.

KATZEN JAMMER CASTLE.

On the pavement at the northeast corner of the square is a striking structure, the Katzen Jammer Castle. This castle is constructed for the purpose of fun only, and is an eminent success. It contains all sorts of devices calculated to teach the lesson that "the wicked stand in slippery places," an elaborate mechanical arrangement furnishing the desired effects.

ELECTRIC THEATRE.

The electric theatre on the north side of the square is a moving picture show. Last night the pictures shown were a complete reproduction of Uncle Tom's Cabin; drama in the air and the lost child. The train robbery and other famous pictures are promised for later in the week.

OTHER ATTRACTIONS.

The other attractions, all of which received a good share of attention, and were favorably commented upon are "Peggy from Paris," with the illusion of a statue turning to life; the Temple of Mirth, which shows conclusively that things are not always what they seem; "How Old is Ann," and the "living doll man." There are besides the carry-us-all, Ferris wheel, etc., and first class free attractions are given during the afternoon and evening.

The company furnishes its own electric light. Their two engines and dynamos are located on the vacant lot on West Court street, and from there the power is conveyed to the square through cables. The plant attracted much attention yesterday.

A very good feature of the carnival is the excellent band which is carried. Their concert at Nichols park Sunday evening was heard by thousands, and their playing was very favorably commented on.

The shows carry out a perfect police patrol system of their own, for the protection of both themselves and of their patrons. George Clark is in charge.

ADJUDGED BANKRUPT

Andrew J. Zallee, Proprietor of West State Street Tailoring Establishment Filed Voluntary Petition Monday—Joseph A. Perkins of Springfield Appointed Receiver.

Andrew J. Zallee, proprietor of the tailoring establishment at 333 West State street, through his attorney, H. M. Tiek, nor, filed a voluntary petition in bankruptcy Monday in the United States district court in Springfield, and Judge Humphrey appointed Attorney Joseph A. Perkins of Springfield, receiver. Mr. Perkins arrived in the city last evening and will take possession of the stock and fixtures this morning. The petition filed shows \$1,000 liabilities and about \$2,300 assets.

Mr. Zallee came to this city about two years ago from St. Louis and purchased the tailoring establishment formerly conducted by George H. Huntton. He has had a large out of town trade, principally in the south, and during the yellow fever epidemic his business has been seriously interfered with. His present reverses are the result.

ROBBED OF WATCH AND CHAIN.

W. H. McCarthy, the cigar manufacturer, lost a valuable watch and chain Monday night. The articles were taken from his person while in the carnival crowds, presumably by a professional pickpocket. The matter was reported to the police, but the property has not been located.

**Blaming the Sun.**  
Eastern scientists are expressing the belief in a guarded way that recently discovered sun spots may be the cause of the torrid weather in this latitude, forgetting that the same cause was assigned during the zero weather of last winter for the severe cold. As the sun spot is so far away to make a defense, the bawd is allowed to worry out his own conclusion. — Pittsburgh Dispatch.

My arms don't reach so far.

I stretch my arms, but the horrid comb

And all because oh, dear me,  
I am too small to dress!"

## MAN WORKED SMOOTH GAME

### WORTHLESS CHECK RAC KET USED ON HOTELS

Many Proprietors in Central Illinois Are Out Cash as a Result of Stranger's Visit--Registered as F. Oliver.

Hotel men all over Illinois are anxious and more than anxious to meet a certain F. Oliver, of Chicago, face to face. He has separated "mine host" as represented by the proprietors of eight or ten hotels, from something over \$500 during the past three weeks. Among the sufferers were the Dunlap and Pacific hotels of this city, each of which took a worthless check for \$54, which appears to have been the favorite that the gentleman played on, as all his victims except one were touched for a like amount.

The game of Mr. Oliver appears to have been long planned and skillfully executed. As a preliminary to his operations, he deposited in the First State bank of Chicago the sum of \$150, to the credit of F. Morris & Co., meat packers, 840 Randolph street—a fictitious firm and an address which does not exist. He then had the bank print for him check blanks bearing the name of the fictitious firm, and he was ready for day, Aug. 14, to start his operations. He withdrew all the money from the bank except about \$2, and started out. He landed in this city Sunday, Aug. 13, and registered at both the leading hotels. Through the mail at each place he received a check on the Chicago bank signed F. Morris & Co., and made payable to F. Oliver. Of course the checks were cashed in both instances, and an investigation which disclosed the above facts followed. Warrants for the arrest of the man are in the hands of all over the country. It is thought that he will be apprehended and brought to justice.

The investigation brought out the fact that the following hotels have been touched in the same manner: St. Nicholas, Springfield, \$54. National, Peoria, \$60. Harper, Rock Island, \$54. Grand, Cedar Rapids, Iowa, \$54. Julian, Cedar Rapids, Iowa, \$54. Delavan, Delavan, \$54. Union, Galesburg, \$54.

The description of Oliver is as follows: Height, 5 feet 9 inches; weight, 150; light complexion, blue or gray eyes, age between 30 and 32; wore blue suit, light weight, and Panama hat; smooth face; very nervous and restless, bites finger nails, and not inclined to talk much; signs name F. Oliver in rather nervous hand.

The Burlington surveyors were in the city Monday contemplating some changes in the proposed cut off which is now under construction. The plan some time ago was to turn the line in a southeasterly direction from the passenger depot and doing away with the curves. The survey made Monday shows that the road will cross the Altou a few yards south of where it now crosses and will make a gradual curve toward the east, joining the line now in use at the first Manvair bridge. If this is done the company will scarcely have to go off of their own right of way.

E. D. Christopher, brakeman on Burlington freight No. 93, was seriously injured Monday evening while making a coupling at the local freight house. Christopher was riding on a car which they were placing on the house track with one foot on the ladder and one foot on the brake beam, when his leg was caught between the car and the platform, severely mashing it just below the knee. Dr. Hairgrove was called and gave the necessary medical attention. Mr. Christopher will be confined to his bed for several days.

Edward Sarsfield, brakeman on Wabash local No. 70 and 71, had the misfortune to be knocked down and considerably bruised Monday morning in the local yards while throwing a switch. A rock was wedged between the rails and as he unlocked the

switch stand the lever came out of its fastening with such force as to knock him to the ground senseless. Dr. Burkholder, the company physician, was called and had him taken to the company hospital in Springfield.

J. T. Martin, of Mexico, Mo., superintendent of bridges of the Altou, was a caller in the city Monday. Engines 46 and 3 were taken out of the shops Monday and sent to Springfield.

Traveling Freight Agent Jenkins, of the Pennsylvania line, was in the city Monday on business with local railroad men.

About 39 took advantage of the excursion to Ft. Madison over the Wabash Sunday.

The contest for queen of the Eagles' jubilee and automobile tournament comes on apace. The finish promises to be fast and furious. As the result now stands Miss Mae Hildreth is in the lead, with Miss Josephine Preston a close second.
